Fokus: Daily House Chores & Responsibility

STIMULUS BACAAN / DATA:
Read the text below for questions number 36 to 40!

In Galang's family, keeping the house clean and comfortable is a shared responsibility. Every Saturday morning after breakfast, each family member has a specific chore:
• Galang's father sweeps the front yard, trims the garden bushes, and washes the motorcycle.
• Galang's mother wipes the kitchen counters, mops the dining area, and cooks lunch.
• Galang cleans his own bedroom, sweeps the living room, and waters the flower pots in the porch.
• Galang's sister, Ara, wipes the glass windows and washes the breakfast dishes at the sink.
By working together, the entire house looks sparkling clean and tidy in less than two hours.

Unit 3: Let's Clean Up!

Fokus: Visual Procedure: Upcycling Plastic Bottles

STIMULUS BACAAN / DATA:
Study the 4-step visual procedure guide below for questions number 41 to 45!

HOW TO MAKE A SELF-WATERING POT FROM USED PLASTIC BOTTLES

Step 1: Cut a clean 1.5-liter plastic bottle horizontally into two halves using scissors.
Step 2: Poke a small drainage hole in the plastic bottle cap and thread a piece of cotton wick/cloth strip through it.
Step 3: Invert the top bottle half (upside down) and place it inside the bottom half filled with water. The wick will absorb water upward.
Step 4: Fill the inverted top section with fertile planting soil and plant your seedling. Water once, and the self-watering system will keep the soil moist automatically.
